SEAC HISTORY, MISSION STATEMENT AND VALUES

HISTORY

The SEAC Board is comprised of individual members with experience in the various fields of knowledge necessary to ensure the proper stewardship of high performance hockey in south-eastern Alberta. These fields include, but are not limited to, academia, ethics, law, education, sport, policy development, corporate management and governance. The board does not represent any one group or sector. Rather, it is a board comprised of a variety of people that reflect the diversity of backgrounds in our community, in hockey and in our country.

If you want to build a ship, don't drum up the men to gather wood, divide the work and give orders. Instead, teach them to yearn for the vast and endless sea.

- Antoine de St. Exupéry

Through thoughtful exchanges on shared values, SEAC will work towards meaningful competition and player development. SEAC, with the support of the various supporting bodies that conduct work in and around sport, will work to develop and elevate the culture and conscience of hockey in our community.

SEAC will be guided in principle by the use of ethical debate to create an environment for meaningful dialogue around the future of high performance hockey, based on commonly agreed upon principles of right and wrong. SEAC will also strive to shape public understanding of how we should behave and train when we compete. **Adapted from Canadian Centre for Ethics in Sport*
